Bio

I am punctual and responsive in task performance. I am currently a React developer with over 2 years of experience in building responsive, user-friendly web applications using Restful principles. I specialize in developing reusable components and implementing efficient state management using **Redux** and the **Redux Toolkit**. My expertise also includes using popular libraries such as **React Router Dom**, **Axios**, **Fomik**, **Firebase** and **Bootstrap** to create dynamic and attractive interfaces. I am currently focused on learning **Typescript**, demonstrating my eagerness to expand my skill set.

Experience

Freelancer | Barcode Scanner

- Collaborate with clients to design and build custom Barcode Scanner software with .exe file
- Using Tauri to create a multiplatform desktop app
- Can be connected to a barcode reader device and create an invoice
